

U&SLUNO a.s.

NEWS 2008

Not sales and profit were the issue, but goals

The second annual indoor football tournament Retail Open 2008 took place on st. Nicholas day in Prague. Under the supervision of U&SLUNO and with support of further partners from the field of information technology - Wincor Nixdorf, Blue Grass and Bull, 12 teams met together in Hamr sport centre.

Besides the organizers and partners "fives", teams of retail chains operators and merchandisers on our market, such as – Ahold, Globus, JAS ČR, Makro, Spar and Tesco, and a foreign team representing our partner company UPOS System & Exorigo, also participated in the tournament. The twelve of the teams was completed by a university team of future talents and promises, the Boží trest.

While there was fighting for every ball taking place on the field, the children taking no account of their fathers' team colors were playing together under their Mum's supervision. And when mummies took a break to play badminton or ping pong, their sprouts were playing pexeso, golf, competed in football academy, danced and quested characters from their favorite fairy tales according to the melody. In the afternoon they st Nicholas arrived and gave them presents provided by Excellent Plzeň company that was also providing coffee and tea for free and offering Fair trade products that help to improve living conditions of poor families in Africa, Asia and Latin America.

In the end the medal positions of this year's Retail Open were divided among the retail representatives, as IT companies stayed behind. The first place was acquired by the Spar team, ahead of Globus and Makro. The winners were given gigantic Walachia cakes from Velké Karlovice bakery.

Retail Open 2008

U&SLUNO and Wincor Nixdorf warmly invite all keen football supporters, active and leisure players, enthusiastic fans of tough but fair matches to the second annual tournament **RETAIL OPEN**, which is at the same time a friendly meeting of companies operation in the field of retail and IT. The whole day will be filled with interesting sports program and accompanying activities both for the adults and children. So do not hesitate to come with the whole family, they can enjoy a day full of fun and joy. The whole tournament will be ended up with an after party with music, barbeque and ceremonial announcement of the best teams and individual performances.

Make up your own football team!
Come with the whole family to support your favorites!

When: Saturday, 6th of December 2008

Where: Hamr Sport Braník

How to register? What is the complete program? What program is prepared for the supporters and kids? How is the football tournament scheduled and planned? For more information please click [here](#).

Successful transition to OBIS 10g in PRIOR CIESKA REPUBLIKA

U&SLUNO realized at its customer PRIOR ČESKÁ REPUBLIKA further upgrade of information system OBIS 10g and its transition to the productive environment. The migration of the whole application to the new server and the migration of databases to the new database server were also carried out within this project. The complete deployment of the upper version, which includes modules Central, Retail, Wholesale and Economy, was performed successfully and according to the predefined and agreed schedule.

Implementation of upper version of OBIS 10g at U&SLUNO's customers

U&SLUNO, the front supplier of information systems for retail, distribution and logistics in the Czech Republic and Slovakia, realized at its customers the transition to the upper version of its own product OBIS 10g. In the present time the new version was successfully put into the operation in COOP Jednota Bratislava, COOP Jednota Čadca and COOP Jednota Žilina.

The complete realization of the transition to the upper version of information system OBIS 10g includes Central, Retail, Wholesale and Economy modules. This was also an occasion to migrate the whole application to a new server.

The users appreciated mainly the way of work and the complex approach of U&SLUNO's employees to the cooperation upon the transition to the new version of OBIS 10g and also the speed of resolving the requirements in the first days of the production environment. The deployment of the new version of OBIS 10g brings benefits for their work not only from the user satisfaction point of view but also from the view of results and increase of business activities. U&SLUNO has again proved that for its customers it is a reliable partner in the field of information systems and technologies.

Complex solution in the field of logistics and warehousing

Are you interested in information technology for warehousing and logistic management? Are you looking for an effective and optimal solution to satisfy your needs? Do you want to know real benefits and results of deployment of such a modern and innovative technology? Than please accept our invitation to a specialized seminar organized by companies U&SLUNO, ESP holding, Zebra Technologies and GS1 association, which is aimed at complex solutions in the field of logistics and warehousing.

When: 11th of September 2008 at 9:00 a.m.

Where: hotel Diplomat, Evropská 15, Prague 6, conference hall Budapest

Detailed program to be found [here](#).

The participation in the seminar is free of charge. Should you be interested please contact the marketing department either via phone: +420 224 818 069 or email: u-sluno@u-sluno.cz
We are looking forward to meeting you.

Logistic conference with U&SLUNO

Logistics conference dedicated to the *"Cooperation within supplier chains - benefits and risks, practise experience"* will be held in the premises of Masaryk's college under the guarantee of the Czech logistics association. The target of the conference is to share information from the cooperation of entrepreneur subjects in the environment of wide supplier chains and to discuss the conditions, which need to be created to support such an effective cooperation.

U&SLUNO as the front supplier of logistic solutions with long-term experience from the implementations of such systems and their follow-up support at significant supplier chains as Ahold, Tesco, Makro, Carrefour and others, will present in the main program. At 11:00 a.m. we shall introduce our contribution *"The power of information system lies in its full utilization"*, where we will present IT as a solution, which efficiency consists in the intensive cooperation between supplier and customer since the very beginning.

As a part of the conference program, a visit to Skyport Cargo terminal is organized. Detailed program to be found at www.czech-logistics.eu

So we warmly invite you to the premises of Masaryk's college, Thákurova 1, Prague 6, where the conference takes place on the 23rd of September 2008. The registration starts at 8:30 a.s. and the termination of the event is planned at 3:30 p.m.

Should you require more information or registration please do not hesitate and contact us via phone: +420 224 818 069 or email: u-sluno@u-sluno.cz

U&SLUNO in the board of directors of SOCR

On the 22nd April 2008, the meeting of the Czech Confederation of Commerce and Tourism (SOCR) took place in TOP Hotel Prague. The delegates approved the new strategy of SOCR activities for the period 2008 – 2010 and elected new board of directors and advisory board.

Ing. Marta Nováková, general manager of U&SLUNO a.s. (a long-term member of SOCR), was elected as a member of the board of directors of this top representative of Czech commerce and tourism. The new president of SOCR became Ing. Zdeněk Juračka. More information to be found at [SOCR](#) web page.

U&SLUNO became Oracle certified Partner

U&SLUNO received a [certificate](#) confirming it reached the ORACLE CERTIFIED PARTNER level.

Come and join us at the FOR LOGISTIC fair

We warmly invite you to the **practical demonstration of system for warehouse operations management utilizing a modern voice technology**. The presentation is going to be introduced within the frame of accompanying program of For Logistic fair, 1st international transport, logistic, storage and manipulation fair, which takes place in Prague 9, Leňany, in the premise of PVA, from 15th to 17th April 2008.

We will present you a unique solution of voice picking, which among others “understands and speaks” Czech. **On the stand of U&SLUNO, situated in hall 6 (B16)**, just in front with the place dedicated to the accompanying program, you will find the actual information about the scheduled times reserved for our presentation in particular days. We will be also pleased to hear your concrete needs and to introduce you further details about the possible utilization of voice technology in the warehouse and to make you acquainted with our complete offer in the field of warehouse logistic.

Aldata wins at European IT EXCELLENCE AWARDS

It's exclusive partner U&SLUNO offers the best solution in the field of voice picking

An innovative PDA-based voice order picking solution from Aldata is the industry-best according to European publisher and market intelligence company, IT Europa. Aldata's G.O.L.D Vocal PDA won Best Solution in the ISV category, communications and mobility, at IT Europa's European IT excellence awards. The company won against competition from 49 organizations in 16 countries for the implementation of the G.O.L.D. Vocal solution at Leclerc Lecasud, the central buying and distribution group of E.Leclerc.

Club G.O.L.D. 2008

The 7th annual conference CLUB G.O.L.D. takes place in London in hotel Royal Lancaster from 2nd to 3rd April 2008. Every year this meeting is organized by the G.O.L.D. Users Association (GUA) in cooperation with company Aldata Solution and it gathers more than 250 participants proceeding from Retail and Supply Chain Industry (Aldata Clients and Partners).

This two-day event is the best occasion to get acquainted with the activities of GUA, the main strategy of our partner company Aldata, with the newest development elements of G.O.L.D. and their practise utilization introduced in the form of case studies. It is also a unique opportunity to meet other partners and customers of this product, to gain new experience and to share your opinions and views.

U&SLUNO as partner of Aldata for the region of Central and Eastern Europe is actively participating in this event and also prepared to arrange the visit for your company should you be interested in Club G.O.L.D.

U&SLUNO partner for Oracle Retail Application

Oracle Retail Application (former Retek) is a top American product that was included in Oracle's portfolio of application tools in 2005. U&SLUNO became one of the main partners for the sale, implementation and support of this solution in the Czech Republic and Slovakia. Now we can offer our customers this strong tool designed mainly for the field of planning, including the production planning, purchase optimization and stock

management even in such complicated ranges as textile and clothes (chains of small garment boutiques with branded goods, chains of footwear stores, sporting goods etc.).

"Hot" news - JWasp flew into the world!

Under the name of **JWasp Framework**, U&SLUNO launches its new solution for the increase of user comfort upon work with Oracle Forms. For the first time this new product was introduced within the frame of Oracle Fusion Middleware Forum, which took place in Prague in Palace Cinemas, on the 11th of October.

Product JWasp came into existence on the basis of our customers demands. Trying to fulfil these demands and our customers' requirements, we faced the limits of Oracle Forms and so we developed our own tool – **JWasp Framework** – which enables further development of application based on Oracle Forms technology in JAVA language without any technological limitations and brings users a wide range of comfort advantages and benefits:

- provides the possibility of subsequent transfers of Oracle Foms to the forms in Java language without the need of a one-time and time-consuming migration,
- enables parallel functioning of new and transferred forms with existing forms in Oracle Forms environment,
- maintains management in identical form – the transition for users is undemanding and intuitive,
- brings more comfortable and faster work with new and transferred forms with many possibilities of parameters settings,
- reduces the price of development and deployment of new application versions.

More information about JWasp and its functionality, services, benefits and possibilities can be found at www.u-sluno.cz/jwasp, or simply contact our marketing department: u-sluno@u-sluno.cz

Medical Research (UK) and Life for children (CZ) organizations through the charity cycling race Tour de Blaireau, which is going to be held on the 12th of June 2007.

Through cycling for better childhood

We have provided company Tesco Stores CR, a.s. a financial donation in the amount of GBP 1.000,- dedicated to support

WITH COMPLIMENTS

The mission of Civic Association Life to Children is to help ill children, mostly through improving the quality of medical and instrumental technology situated in children's wards, which is necessary for the doctors to

properly and considerately heal the children. Given today's fast development of medicine and technology, these machines fade away faster than before. Renovation of medical technology throughout the world is absolutely necessary for improving care of critically ill children.

The association tries to help ill children also directly, by giving them toys, books, providing nice furniture to children's wards, organizing shows for children confined to bed on a long-term basis, ... Less intensively, according to our association's potential, we also help individual applicants. This mostly concerns contributions towards buying wheelchairs, physiotherapeutical aids, ...
