U&SLUNO at Retail Summit conference

Our company is one of the partners of this year's annual 15th Retail Summit, which takes place in Top Hotel Prague, from 3rd to 4th February 2009.

Mrs. Marta Nováková, General manager of U&SLUNO, will introduce a discussion aimed at the actual trends and future of utilization of technologies in retail. It focuses, besides others, on the possibilities of efficiency improvement within the optimization of supplier chain, on the perspectives of mobile technology, self-service, price management or centralization of assortment management. This part will be followed by presentations and discussions dedicated to the administration and synchronization of data, modern telecommunication trends and their utilization in retail. Besides U&SLUNO, representatives of companies Ahold, Billa, Makro, Nestlé, and also GS1 Servis, Oracle and Telefonica O₂ will present their experience.

Not sales and profit were the issue, but goals

U&SLUNO a.s. press release

The second annual indoor football tournament Retail Open 2008 took place on st. Nicholas day in Prague. Under the supervision of U&SLUNO and with support of further partners from the field of information technology - Wincor Nixdorf, Blue Grass and Bull, 12 teams met together in Hamr sport centre.

Besides the organizers and partners "fives", teams of retail chains operators and merchandisers on our market, such as – Ahold, Globus, JAS ČR, Makro, Spar and Tesco, and a foreign team representing our partner company UPOS System & Exorigo, also participated in the tournament. The twelve of the teams was completed by a university team of future talents and promises, the Boží trest.

While there was fighting for every ball taking place on the field, the children taking no account of their fathers' team colors were playing together under their Mum's supervision. And when mummies took a break to play badminton or ping pong, their sprouts were playing pexeso, golf, competed in football academy, danced and quested characters from their favorite fairy tales according to the melody. In the afternoon they st Nicholas arrived and gave them presents provided by Excellent Plzeň company that was also providing coffee and tea for free and offering Fair trade products that help to improve living conditions of poor families in Africa, Asia and Latin America.

In the end the medal positions of this year's Retail Open were divided among the retail representatives, as IT companies stayed behind. The first place was acquired by the Spar team, ahead of Globus and Makro. The winners were given gigantic Walachia cakes from Velké Karlovice bakery.

RETAIL Football OPEN

U&SLUNO and Wincor Nixdorf warmly invite all keen football supporters, active and leisure players, enthusiastic fans of tough but fair matches to the second annual tournament **RETAIL OPEN**, which is at the same time a friendly meeting of companies operation in the field of retail and IT. The whole day will be filled with interesting sports program and accompanying activities both for the adults and children. So do not hesitate to come with the whole family, they can enjoy a day full of fun and joy. The whole tournament will be ended up with an after party with music, barbeque and ceremonial announcement of the best teams and individual performances.

**Make up your own football team!
Come with the whole family to support your favorites!**

When: Saturday, 6th of December 2008

Where: Hamr Sport Braník

Successful transition to OBIS 10g in PRIOR CIESKA REPUBLIKA

U&SLUNO realized at its customer PRIOR ČESKÁ REPUBLIKA further upgrade of information system OBIS 10g and its transition to the productive environment. The migration of the whole application to the new server and the migration of databases to the new database server were also carried out within this project. The complete deployment of the upper version, which includes modules Central, Retail, Wholesale and Economy, was performed successfully and according to the predefined and agreed schedule.

Implementation of upper version of OBIS 10g at U&SLUNO's customers

U&SLUNO, the front supplier of information systems for retail, distribution and logistics in the Czech Republic and Slovakia, realized at its customers the transition to the upper version of its own product OBIS 10g. In the present time the new version was successfully put into the operation in COOP Jednota Bratislava, COOP Jednota Čadca and COOP Jednota Žilina.

The complete realization of the transition to the upper version of information system OBIS 10g includes Central, Retail, Wholesale and Economy modules. This was also an occasion to migrate the whole application to a new server.

The users appreciated mainly the way of work and the complex approach of U&SLUNO's employees to the cooperation upon the transition to the new version of OBIS 10g and also the speed of resolving the requirements in the first days of the production environment. The deployment of the new version of OBIS 10g brings benefits for their work not only from the user satisfaction point of view but also from the view of results and increase of business activities. U&SLUNO has again proved that for its customers it is a reliable partner in the field of information systems and technologies.
